

## Coopered Side Table

The Coopered Side Table is an elegant solid wood piece that celebrates woodworking and some of its most traditional joinery techniques. As the name suggests, the sides are coopered like a barrel to allow each facet to follow the curvature of the glass top, which slots into a tight groove. The whole table is held together by a stretcher featuring a removable tenon wedge, giving the table surprising stability for such a simple form.

**22"H x 22.5"W x 20"D**

**Wood base:** Wanlut, White Oak, Blackened Oak  
Lacquered finish
